Data: CDCB/4-24, AJCA/4-24, IB-M/USA/4-24, GENEX/4-24 *Prices are listed for conventional semen. Contact your GENEX representative for GenChoice™ sexed semen pricing.

Genex Cooperative, its agents or employees, cannot and do not guarantee the conception rate, quality or productivity to be obtained in connection with the use of their products or recommended techniques. THEY MAKE NO WARRANTIES OF ANY KIND WHATSOEVER EXPRESSED OR IMPLIED WHICH EXTENDS BEYOND THE DESCRIPTION OF THE PRODUCTS AND HEREBY DISCLAIM ALL WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. In the unlikely event that any of the products shall be proven to be defective, damages resulting from their use shall be limited to their purchase price. GenChoice™ semen produced since September 2020 as Sexed Ultraplus™.

Empowering tomorrow's cows to perform.

ICC™ is a true legacy index that has helped producers like you build their next generation over the past decade. New this April is an update to the formula, reflecting our commitment to ensuring you and your future herd is covered.

With the April 2024 update, the ICC™ formula was simplified and refocused to emphasize sustainability and create even more efficient, productive and problem-free cows. Additional emphasis was placed on Heifer Livability, Productive Life, Daughter Fertility and easy milking daughters with exceptional milk quality.

How does ICC™ compare to other indexes?

ICC™

Well-rounded index focused on traits that produce a sustainable cow.

- + Production Efficiency
- + Health and Sustainability
- + Fertility

JPI™

Selection on JPI™ puts a heavier focus on production and less focus on cow health, longevity and reproduction.

CM\$

Selection on CM\$ puts a greater emphasis on yield but less on cow longevity, livability and daughter fertility.
